

To Whom This Concerns,

I'm writing to express my dissatisfaction at the possibility of the inability to receive the radio signal needed in order to listen to my favorite radio station, K-LOVE. In a world in which we are subjected to things we don't care to see or hear everyday, I can ALWAYS trust that K-Love will be family-friendly and unoffensive. I know many people who listen to K-Love. It has a positive effect on ALL of our lives. I've recently lost one of my children in an auto accident. He was 1 month shy of his 17th birthday. The music from K-LOVE has been one of the things I have relied upon heavily for comfort during this time. That's something no other radio station I know of can do. Our young people need and deserve the choice of a more wholesome and encouraging radio station to listen to. I enjoy K-LOVE enough to contribute money to keep it on the air. There's NO other radio station I would do that for.

Sincerely,

Karen Freeman
